RE: FINAL SAN JUAN BASIN PIT CLOSURE REPORTS

Dear Ms. Juckes:

The New Mexico Oil Conservation Division (OCD) has completed a review of PNM Gas Services' (PNM) November 1, 1999 "OCD PIT CLOSURE REPORTS – 3RD REPORTING QUARTER 1999". This document contains "PIT REMEDIATION AND CLOSURE REPORTS" for 7 unlined pits in the San Juan Basin at which ground water contamination was discovered. The document requests closure of the sites since ground water has been remediated to below New Mexico Water Quality Control Commission (WQCC) standards as demonstrated in 4 consecutive quarterly sampling events at each site. The document also contains PNM's proposed monitoring well plugging and abandonment procedures.

The pit closure/remediation activities and the proposed monitor well plugging and abandonment proposals for the sites listed below are **approved**.
