		Application 1D					
	Total Control						
Was this a major	If YES, for what reason(s) does the respon	sible party consider this a major release?					
release as defined by							
19.15.29.7(A) NMAC?							
☐ Yes ⊠ No							
If YES, was immediate ne	otice given to the OCD? By whom? To wh	om? When and by what means (phone, email, etc)?					
Initial Response							
The responsible	party must undertake the following actions immediatel	vunless they could create a safety hazard that would result in injury					
_							
The source of the rele	ease has been stopped.						
The impacted area ha	s been secured to protect human health and	the environment.					
Released materials ha	ave been contained via the use of berms or d	ikes, absorbent pads, or other containment devices.					
		**					
All free liquids and re	ecoverable materials have been removed and	managed appropriately.					
If all the actions described	d above have <u>not</u> been undertaken, explain v	vhy:					
		-					
Per 19 15 29 8 R (4) NM	AC the responsible party may commence re	emediation immediately after discovery of a release. If remediation					
		efforts have been successfully completed or if the release occurred					
		lease attach all information needed for closure evaluation.					
Thought coutify that the infer	mustice sizes shows is two and complete to the l	pest of my knowledge and understand that pursuant to OCD rules and					
		ications and perform corrective actions for releases which may endanger					
public health or the environment. The acceptance of a C-141 report by the OCD does not relieve the operator of liability should their operations have							
failed to adequately investigate and remediate contamination that pose a threat to groundwater, surface water, human health or the environment. In							
addition, OCD acceptance of a C-141 report does not relieve the operator of responsibility for compliance with any other federal, state, or local laws							
and/or regulations.
