Ramona,

I put the GPS from Google Earth for the tank that leaked, the ULSTR was correct and I changed the name to Grizzly Operating, LLC and the OGRID number is the same we just changed the name after coming out of bankruptcy.

Thank You CPitt

Please not only fix the lat./long or ULSTR but file the C-141 under GRIZZLY and please complete the OGRID number.

Ramona,

Again I'm so sorry for my incompetence at finding you the information you need, I have attached a snippet from the OCD GIS to refer to.

We only have one well that feeds to the battery it is the Stovall Wood #3 API#30-015-04703, there is a disposal well that takes water from the battery the State #002 API # 30-015-04686.

Again I'm so sorry for the confusion, and thank you so very much for your time and assistance.

Thank You CPitt

What is the name of the well this tank battery is associated with?

Ramona,

I'm so very sorry for not being able to find the info, I have checks under Vanguard and Grizzly for Tanks and Facilities and nothing comes up for any of the names that show on the site sign. Is there any way I can call you to discuss?

Thank You CPitt

Ear M.s Pitt,

I would recommend familiarizing yourself and your landman with the NMOCD website where many different searches can be made:

<https://wwwapps.emnrd.state.nm.us/ocd/ocdpermitting/>

See the search pull down menu?

Ramona,

I couldn't find one in our records, the first one I sent in they told me to put the API from a well that produces into the tank battery but I found out that's not the case. Where would I look for API number for a Battery?

Thank You CPitt

Dear Ms. Pitt,

The OGRID number is coming up with a different operator. Would 281994 be a good number to use for Vanguard?

If you wish to do a search on NMOCD website for Operator OGRID number, the link

is: <https://wwwapps.emnrd.state.nm.us/OCD/OCDPermitting/Operators/Search/OperatorSearch.aspx>

Please advise.
