NRM2012240751 FIDDLE FEE 24 28 23 WD #003H @ 30-015-45035

Melodie,

The OCD has denied the submitted Closure Request C-141 for incident # NRM2012240751 for the following reason:

- Additional floor samples and sidewall samples need to be collected. Each sample appears to represent an area much greater than 200 square feet. Unless previous approval was granted for an alternate sampling plan, samples should represent an area of no more than 200 square feet.

The Denied C-141 can be found in the online image file. Please review and make the required correction prior to resubmitting through the fee portal. If you have any questions or believe this denial is in error, please contact me prior to submitting an additional C-141.

Thanks,

Cristina Eads

OCD approval does not relieve the operator of liability should their operations fail to adequately investigate and remediate contamination that may pose a threat to groundwater, surface water, human health or the environment. In addition, OCD approval does not relieve the operator of responsibility for compliance with any other federal, state, or local laws and/or regulations.
