

## Closure Report

### Incident ID: NRM2012548982

#### Site Description

Site Name:	N. Corridor 29 Gold SRT CTB
Company:	Oxy, Permian
Legal Description:	U/L I, Section 29, T23S, R31E
County:	Eddy County, NM
GPS Coordinates:	N 32.2724 W 103.8012

#### Release Data

Date of Release:	4/12/2020
Type of Release:	Produced water
Source of Release:	Water tank overflow due to gasket failure
Volume of Release:	1500 bbls
Volume Recovered:	1500 bbls

#### Remediation Specifications

Remediation Parameters:	Release occurred on a lined containment and has been cleaned as evidenced on the attached photos.
Remediation Activities:	May 2020

Plan Sent to OCD:	n/a	Lined facility
OCD Approval of Plan:	n/a	Lined facility
Plan Sent to BLM:	n/a	Lined facility
BLM Approval of Plan:	n/a	Lined facility

#### Supporting Documentation

Initial C-141	signed and included	
C-141, page 6	signed and included	
Site Diagram	May 2020	
Pictures	Lined integrity photos

## Closure

The responsible party must attach information demonstrating they have complied with all applicable closure requirements and any conditions or directives of the OCD. This demonstration should be in the form of a comprehensive report (electronic submittals in .pdf format are preferred) including a scaled site map, sampling diagrams, relevant field notes, photographs of any excavation prior to backfilling, laboratory data including chain of custody documents of final sampling, and a narrative of the remedial activities. Refer to 19.15.29.12 NMAC.

**Closure Report Attachment Checklist:** *Each of the following items must be included in the closure report.*

- ☐ A scaled site and sampling diagram as described in 19.15.29.11 NMAC
- ☒ Photographs of the remediated site prior to backfill or photos of the liner integrity if applicable (Note: appropriate OCD District office must be notified 2 days prior to liner inspection)
- ☐ Laboratory analyses of final sampling (Note: appropriate ODC District office must be notified 2 days prior to final sampling)
- ☐ Description of remediation activities

I hereby certify that the information given above is true and complete to the best of my knowledge and understand that pursuant to OCD rules and regulations all operators are required to report and/or file certain release notifications and perform corrective actions for releases which may endanger public health or the environment. The acceptance of a C-141 report by the OCD does not relieve the operator of liability should their operations have failed to adequately investigate and remediate contamination that pose a threat to groundwater, surface water, human health or the environment. In addition, OCD acceptance of a C-141 report does not relieve the operator of responsibility for compliance with any other federal, state, or local laws and/or regulations. The responsible party acknowledges they must substantially restore, reclaim, and re-vegetate the impacted surface area to the conditions that existed prior to the release or their final land use in accordance with 19.15.29.13 NMAC including notification to the OCD when reclamation and re-vegetation are complete.
