NRM2008542121 EL PASO 23 FED #2 @ 30-015-29307

Todd,

The OCD has approved the Site Characterization and Remediation Plan for incident # NRM2008542121 with the following condition:

- The borehole to be installed at the site indicates depth to groundwater is at a depth of greater than 50'.

The signed C-141 can be found in the online image data base under the incident #. Please let me know if you have any questions.

Thanks,

Cristina Eads

OCD approval does not relieve the operator of liability should their operations fail to adequately investigate and remediate contamination that may pose a threat to groundwater, surface water, human health or the environment. In addition, OCD approval does not relieve the operator of responsibility for compliance with any other federal, state, or local laws and/or regulations.
