Aaron,

We have received your Workplan/Remediation Proposal for **2RP-5447 Gossett 20 3H Battery**, thank you. This Workplan/Remediation proposal is denied. Please make sure page 5 "Remediation Plan" is signed and filled out at resubmission.

Please review and resubmit including all documentation as required.

Please submit:

1. Scaled site map diagram
2. Site Photos
3. Site Assessment/Delineation summary (horizontal and vertical)
4. Delineation sample analytical results (lab tested)
5. Table containing analytical data
6. Description of proposed excavation depths corresponding to analytical table
7. Depth to groundwater evaluation, including fluid level data from New Mexico Office of the State Engineer or other documented evidence
8. Karst evaluation

This report is very incomplete. I suggest contacting a third party contractor to formulate your proposal.

If you need assistance, the current spill rule may be viewed here: <http://164.64.110.134/parts/title19/19.015.0029.html>

Please let me know if you have any further questions.

Regards,

OCD approval does not relieve the operator of liability should their operations fail to adequately investigate and remediate contamination that may pose a threat to groundwater, surface water, human health or the environment. In addition, OCD approval does not relieve the operator of responsibility for compliance with any other federal, state, or local laws and/or regulations.

Victoria,

Please review and comment on this work plan. If you agree, I think we should be able to clean-up easily and quickly...and the next C-141 will be able to contain completed site characterization and closure sections.

Thanks,
