**Subject:** [EXT] Notification of major release  
**Date:** Wednesday, December 16, 2020 10:27:54 AM

---

Mr. Bratcher,

This is to inform you that on December 15, 2020, Grand Banks Energy had a major release at the Anderson Ranch Unit #14. Ryan Mann with the SLO contacted Andy Rickard at Grand Banks to notify him of an active release. A vacuum truck was dispatched and the well shut in. Hungry Horse is preparing the Initial C-141 for submittal through the Portal. 100 bbls of oil was released to the tank battery containment and 97 bbls were recovered. There is an overspray area to the south of the tank battery.

Thank you,

Daniel Dominguez  
Sr. Project Manager  
Hungry Horse, LLC
