Was this a major release as defined by	If YES, for what reason(s) does the respon N/A	sible party consider this a major release?
19.15.29.7(A) NMAC?		
☐ Yes ⊠ No		
If YES, was immediate no	otice given to the OCD? By whom? To wh	om? When and by what means (phone, email, etc)?
	Initial Ro	esponse
The responsible p	party must undertake the following actions immediatel	y unless they could create a safety hazard that would result in injury
The source of the rele	ease has been stopped.	
☐ The impacted area ha	s been secured to protect human health and	the environment.
Released materials ha	we been contained via the use of berms or c	ikes, absorbent pads, or other containment devices.
All free liquids and re	ecoverable materials have been removed and	l managed appropriately.
If all the actions described	d above have <u>not</u> been undertaken, explain	why:
Released material was no	t a liquid therefore the fourth option does no	ot apply.
Per 10 15 20 8 R (4) NM	AC the responsible party may commence r	emediation immediately after discovery of a release. If remediation
has begun, please attach	a narrative of actions to date. If remedial	efforts have been successfully completed or if the release occurred lease attach all information needed for closure evaluation.
regulations all operators are public health or the environr failed to adequately investig	required to report and/or file certain release noti ment. The acceptance of a C-141 report by the C ate and remediate contamination that pose a thre	pest of my knowledge and understand that pursuant to OCD rules and fications and perform corrective actions for releases which may endanger ICD does not relieve the operator of liability should their operations have at to groundwater, surface water, human health or the environment. In responsibility for compliance with any other federal, state, or local laws

Closure

The responsible party must attach information demonstrating they have complied with all applicable closure requirements and any conditions or directives of the OCD. This demonstration should be in the form of a comprehensive report (electronic submittals in .pdf format are preferred) including a scaled site map, sampling diagrams, relevant field notes, photographs of any excavation prior to backfilling, laboratory data including chain of custody documents of final sampling, and a narrative of the remedial activities. Refer to 19.15.29.12 NMAC.

N/A due to release report is a flare event.							
☐ A scaled site and sampling diagram as described in 19.15.29.11 NMAC							
Photographs of the remediated site prior to backfill or photos of the liner integrity if applicable (Note: appropriate OCD Dimust be notified 2 days prior to liner inspection)	istrict office						
Laboratory analyses of final sampling (Note: appropriate ODC District office must be notified 2 days prior to final sampling	g)						
Description of remediation activities							
I hereby certify that the information given above is true and complete to the best of my knowledge and understand that pursuant that regulations all operators are required to report and/or file certain release notifications and perform corrective actions for release may endanger public health or the environment. The acceptance of a C-141 report by the OCD does not relieve the operator of lies should their operations have failed to adequately investigate and remediate contamination that pose a threat to groundwater, surfaint human health or the environment. In addition, OCD acceptance of a C-141 report does not relieve the operator of responsibility from compliance with any other federal, state, or local laws and/or regulations. The responsible party acknowledges they must substant restore, reclaim, and re-vegetate the impacted surface area to the conditions that existed prior to the release or their final land use accordance with 19.15.29.13 NMAC including notification to the OCD when reclamation and re-vegetation are complete.	ases which ability ce water, for attally
