Mr. Daniel S. Nutter
Oil Conservation Commission
Santa Fe, New Mexico

Dear Mr. Nutter:

I am instructing our representative in Cimarron, New Mexico to ship to the New Mexico Bureau of Mines the samples from our Mackie well #1 located in Sec 18, TWP 25 N, R 20 E, and our HMB well #1 located in Sec 36, TWP 25 N, R 19 E, Colfax County, New Mexico.

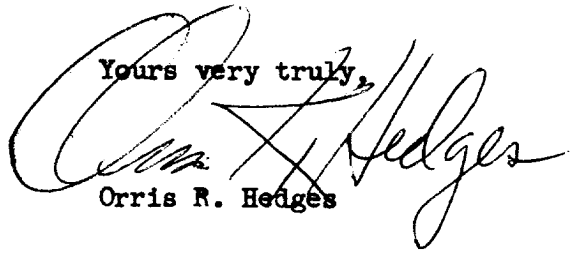

Both of the aforesaid wells encountered water and did not penetrate any oil bearing formation. The tools were lost in the latter well and it is being used as an Artesan water well.

Will you please advise if it will be necessary to abandon either or both of these wells under your requirements.

We are presently working on the possibility of a deep test in this area, and will advise you when our arrangements have been completed.

ORH:pb

Yours very truly,

Orris R. Hedges
