Memo

From

CARL ULVOG
SENIOR

PETROLEUM GEOLOGIST

To: R.E. Bennett

The locations of your Phelps-Dodge Wells No. 1, 1-4, & 4 are now O.K. and the C-103 forms reporting the abandonment of those wells can be approved (and files closed) except for lack of the Forms C-105 and logs. If you will send that material we can 'wipe' those three wells off the active books.

(See attached copy of Rule 202-A)

C. U.

P.S. Presumably you know there is a fair amount of casing out in the weeds by your Well Nos. 3 & 3-Y.
