Describe Proposed or Completed Operations (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work). SEE RULE 1103.

Spudded 12" hole at 1:30 P. M., 8/22/80, TD 25'. Set 25' 8 5/8" 23# casing. Cemented with 5 sacks of neat cement containing 2% calcium chloride from TD to surface. Drilled well to 899' with a 7 7/8" bit. Received permission from Mr. Carl G. Ulvog on November 12, 1980 to plug well. He recommended a 50 sack cement plug be set from 899' TD back to 724' and a 14 sack plug from 40' back to surface. Attempted to clean out well to TD but was unable to get below 850'. A 50 sack cement plug was set from 850' back to 676' and a 14 sack plug from 40' back to surface. Installed marker and filled pit. Location is ready for inspection.

Cored well as follows: 708'-734', 752'-775', 775'-790', 790'-797' and 797'-823'.

Cementing operations completed November 13, 1980.

APPROVED

I hereby certify that the information above is true and complete to the best of my knowledge and belief.
