Guadalupe County, New Mexico

Dear Sir:

We have your notice of intention to drill on Oil Conservation Commission form C-101 concerning the above captioned well. Since this location is on federal land it is out of our jurisdiction and will have to be handled by the U. S. Geological Survey. You shall have to file a similar notice of intention to drill, on a U.S.G.S. form, i. e., Sundry Notices and Reports on Wells, with their office at Box 997, Roswell, New Mexico.

I suggest that you include information concerning drilling equipment to be used, a tentative casing - cementing schedule, and approximate total depth planned.

Very truly yours,

E. A. CHAVEZ,
Geologist
