Gentlemen:

In connection with the notice of intention to drill by J. L. Harper on the Preston Beck Jr., Grant in Guadalupe County application is hereby made for approval by the same as an unorthodox location for the following reasons:

A. The geologist has chosen this particular location as the spot where we are most likely to strike oil and being a wild cat well and the only well in that area we are very anxious to use the best possible location.

B. A location in the center of the 40 acre tract is not a suitable well drilling site due to the topography of that area.

C. The people interested in drilling this well own or control 100% of all surrounding area within a radius of 660 feet of the proposed location.

Respectfully submitted,

J. Ernest Corey
