SUITE 4, 711 SEVENTEENTH STREET
DENVER, COLORADO

MAY 12 1939

Mr A Andreas
State geologist
Santa Fe New Mex

Masquero N Mex
May 11 1939

Dear Mr Andreas

The western Freezit Corp has been operating ever since I resigned from the management last Nov 1938. However I still own $\frac{1}{4}$ interest in the Corp and represent about $\frac{1}{4}$ more of the other stock holders

I wish to have you close the western Freezit Corp until such time that they will comply with the state regulations. if you desire I will be glad to do any thing I can do to help your office. the Corp will be better closed for a while any way as they are not making expenses and there is only 74,000 cubic foot of gas in the well, you would have to run night and day to get $3\frac{1}{2}$ tons of gas in drums or to make 1500 pounds of ice in 24 hours it isent a commercial well.
