

January 14, 1961

New Mexico Oil Conservation Commission  
P.O. Box 871  
Santa Fe, New Mexico

Attention: Mr. J. E. Kapteina:

Dear Sir:

I personally witness d the plugging of the J. E. Edwards Co. #1 - Dr. W. A. Maddox lease - they used 15 sacks cement in the bottom of the hole, 15 sacks around the bottom of the casing and 5 sacks at the top of the hole and cemented a piece of casing in the top end of the casing extending 7 or 8 feet above the ground.

The location has this date again been leveled and cleaned, and the collar has been filled up.

Yours very truly,

*Donald L. Prichard*

Donald L. Prichard,  
Equipment Manager
