Re: Lula Gambrel Well No. 1

Madam:

P
Y
It has come to the attention of the New Mexico Oil Conservation Commission that the well you are causing to be drilled in the SE/4 SW/4 of Section 24, Township 20 North, Range 26 East, NMPM, Harding County, New Mexico, has been temporarily abandoned as of May 11, 1960. In checking the well record of the subject well, it is noted that you have not applied for temporary abandonment approval. If drilling operations have been suspended rather than the well temporarily abandoned, your attention is called to Rule 202 C of the Rules and Regulations of the New Mexico Oil Conservation Commission which states "When drilling operations have been suspended for 60 days, the well shall be plugged and abandoned unless a permit for temporary abandonment shall be obtained from the Commission."

On October 8, 1959, this office received and approved Notice of Intention to Plug for the subject well as filed by A. M. Belcher. It is the wish of the Commission that the approved plugging program be disregarded until a report of the present status of the well has been received by this office. It is also desired that Rule 107 be complied with inasmuch as you have disregarded the filing of forms required after all casing strings are run.
