SANTA FE, NM

INSPECTION REPORT OF JUNE 25 AND 26, 1958

Harding County

(1) Schutten and Dyer dba Jedo Oil Company, Mary A. Foster 1-B
27-20N-26E.

This well was transferred to Jedo by Morad Oil and Mining Company
July 19, 1956. This was the last report received by this office on the well.

Inspection of the location reveals that the pits are not filled and
that there is some junk on the location. Further, the well has 5 1/2 inch
casing in the hole covered by a screw-on metal cap. Since the cap could not
be removed it could not be determined if the well had been plugged. There
was no permanent marker on the well. There is presently a letter out to
Miss Dyer Concerning this well, action should await a reply.
