Santa Fe, New Mexico.

Gentlemen:

Following is a notice of intention to do certain work as described below at the \_\_\_\_\_

\_\_\_\_\_ Well No. 2 in \_\_\_\_\_  
 \_\_\_\_\_ Company or Operator \_\_\_\_\_ Lease \_\_\_\_\_  
 of Sec. 31, T. 20 N, R. 21 E, N. M. P. M., \_\_\_\_\_ Field,  
 \_\_\_\_\_ County.

## FULL DETAILS OF PROPOSED PLAN OF WORK

FOLLOW INSTRUCTIONS IN THE RULES AND REGULATIONS OF THE COMMISSION

which is required by the Conservation Commission to be left in the well, in the well. It is my desire to work with and under the instructions of the Conservation Commission at all times while pulling the casing above referred to. If it be permissible to pull these three strings of casing it is my purpose and intention, after pulling that portion of the  $8\frac{1}{4}$  inch that I may be able to pull, to cement or mud the hole with adobe mud, which I am told may be used in place of cement, up to the bottom of the ten inch string; then proceed to pull the ten inch and mud or cement the hole up to the bottom of the  $12\frac{1}{2}$  inch; then proceed to pull the  $12\frac{1}{2}$  inch and when that is finished, to mud or cement the hole to the bottom of the cellar, which will be the top of the  $15\frac{1}{2}$  inch or the surface string of casing. This matter, I had up with Mr. Levine, the attorney for the Conservation Commission while in Santa Fe Monday morning, and asked him in turn when the application came in, if he would be kind enough to explain my purpose and intention to the Conservation Commission ~~and~~ securing my permit for pulling the above mentioned casing.
