Mr. Max Maes
Springer, New Mexico

Re: Brooks Exploration Incorporated
#1 Fernandez-Maes
Sec. 17, T22N, R21E

Dear Max:

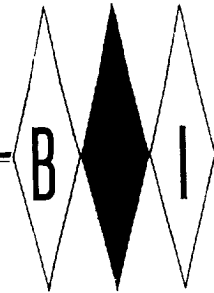

I have just received correspondence from the State of New Mexico wherein they want me to do something with the test well we drilled on your place. I told them on the last forms I filled out and sent that you were going to make a water well out of this test. Since the necessary forms have not been returned to me wherein you take over the well, I feel that I must plug and abandon the test as per state requirements. If you still want the hole, please let me know or I will have to go ahead and plug it. Let me know what you think.

Very truly yours,

Bill J. Brooks
President

Re: Brooks Exploration Incorporated
#1 Fernandez - Maes
Sec. 17, T22N, R21E

Dear Carl:

Enclosed is a copy of a letter I have just sent Mr. Max Maes of Springer, New Mexico. It has been quite sometime since I've heard from him. I did supply him with forms so he could take the well over as fresh water supply but he has never returned same. I hope this letter to him will get it straightened out so I can either plug the well or he can take it over.

Very truly yours,

Bill J. Brooks
