17. Describe Proposed or Completed Operations (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work) SEE RULE 1103.

The subject well was deepened to 841' (driller) to the Entrada Sand where water was found. Several zones in the Morrison section indicated by log they were potential gas zones. Due to porosity, permeability and very low pressure it was determined the test should be completed open hole rather than running 4 1/2" casing as previously indicated on form C-101. We will shut water off in Entrada by cementing lower portion of the hole.

18. I hereby certify that the information above is true and complete to the best of my knowledge and belief.

February 11, 1976

Brooks Exploration Incorporated
1005 Western Federal Savings Building
Denver, Colorado 80202

Attention: Mr. Bill J. Brooks

Administrative Order TX-47

Gentlemen:

Reference is made to your letter of February 4, 1976, wherein you request exceptions to provisions of Commission Rule 107 (d) 2 for the following wells in Township 21 North, Range 21 East, NMPM, Mora County, New Mexico:

Berlier Well No. 1-A, located in Unit N of Section 14, in which 7 inch casing is set at 293 feet cemented to the surface;

Julian Well No. 1, located in Unit G of Section 15, in which 4 1/2 inch casing is set at 379 feet cemented to the surface;

Berlier Well No. 3, located in Unit A of Section 22, in which 7 inch casing is set at 364 feet cemented to the surface;

Berlier Well No. 2, located in Unit A of Section 23, in which 7 inch casing is set at 358 feet cemented to the surface;

Berlier Well No. 4, located in Unit K of Section 23, in which 7 inch casing is set at 324 feet cemented to the surface;

Berlier Well No. 5, located in Unit B of Section 26, in which 7 inch casing is set at 380 feet cemented to the surface.

It is our understanding that no liquids are produced with the gas in any of these wells. Therefore, in accordance with the authority granted me by Rule 107 (e), Brooks Exploration Incorporated is hereby entitled to produce the above described wells through the casing, provided however, that the Commission reserves the right to rescind this authorization at any time that it considers waste or reservoir damage to be resulting from such production practices.

Very truly yours,

JOE D. RAMEY
Secretary-Director
