Mr. Elvis A. Utz
Gas Engineer
N. M. Oil Conservation Commission
P. O. Box 371
Santa Fe, New Mexico

Re: Stephens No. 1
NWSW Sec. 32-6N-30E

Dear Mr. Utz:

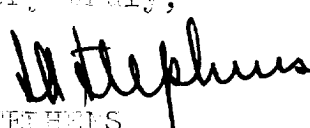

On my return home from South Texas this morning,
I received your letter of May 11th.

I received the rules and regulations as effective by
the New Mexico Oil Conservation Commission as of Jan.
1, 1950, but we did not receive the form C-101, nor
C-102 which you mentioned in your letter that you
were sending these forms.

I probably will need another form relative to the
deepening of our test, as we have decided to drill
the well to the Pennsylvania.

We are drilling the well "tight" and I will appreciate
if you will keep all information confidential.

Yours very truly,

I. A. STEPHENS

P. S.-- I called our geologist and find that Santa
Rosa sand was encountered at 1220 ft. to 1360 ft.
water zones.

Also just received your forms C-101 and C-103 in the
afternoon mail.
