

OIL CONSERVATION COMMISSION

Santa Fe, New Mexico

MISCELLANEOUS REPORTS ON WELLS

Submit this report in triplicate to the Oil Conservation Commission or its proper agent within ten days after the work specified is completed. It should be signed and sworn to before a notary public for reports on beginning drilling operations, results of shooting well, results of test of casing shut off, result of plugging of well, and other important operations, even though the work was witnessed by an agent of the Commission. Reports on minor operations need not be signed and sworn to before a notary public. See additional instructions in the Rules and Regulations of the Commission.

Indicate nature of report by checking below.

OIL CONSERVATION COMMISSION,
SANTA FE, NEW MEXICO
Gentlemen:

Following is a report on the work done and the results obtained under the heading noted above at the _____

Jenson Oil Co. Inc. L.D. Stith First Natl Bank Well No. 2 in the _____
Company or Operator Lease
NE1/4 of SE1/4 of Sec. 27, T. 10, R. 31 E, N. M. P. M.,
Wildcat Field, Quay county County.

The dates of this work were as follows: Starting Feb. 14, Ending Feb 17, 50

Notice of intention to do the work was (was not) submitted on Form C-102 on Dec 1949
and approval of the proposed plan was (was not) obtained. (Cross out incorrect words.)

DETAILED ACCOUNT OF WORK DONE AND RESULTS OBTAINED

Filled open hole from Total depth to 1100 ft. mud and put five sacks cement. Pulled 1063 ft 85/8 casing. Then filled the hole to 675 with mud and put in 8 sacks of cement. Failed to pull all the 10" casing left 358 ft. in the hole it was left from 258 to 615. We then filled the hole from 675 to the top with mud. thus seperating any fresh water from any section of salt or salt water. Put four sacks cement in the top of the hole and also a four in. pipe four feet long.
