Dear Sir: RE: George L. Harris, \$2,500.00 one-well
bond; NE NE NW 2-13N-33E; National Surety

Please refer to your letter of November 11 regarding the desired cancellation of the captioned bond with the later George L. Harris as principal.

Our records show that the well was not plugged, and that there was a plan effected whereby the landowner would take over the hole as a water well. However, this plan was never officially approved or completed, so we are this week having an inspector contact the landowner to see if he still assumes plugging responsibility and we will advise your office as soon as we have any information.

Yours very truly,

W. B. Macey

Re: 1 Well Bond - George L. Harris
Bond # 1032806

Gentlemen:

I am writing you for the Administrator of the
Estate of George L. Harris, deceased.

The above estate is about ready for closing
and we have lately found out from communications from
the National Surety Company that George L. Harris
executed some kind of bond to the State of New Mexico
relative to the drilling of an oil well in that State.
We have been furnished with a letter from R. R. Spurrier,
dated January 27, 1950, which indicates that the well
had been abandoned but not plugged as of that date. He
also mentions that form C-105 had not been submitted.

We want to cancel the bond and close the
estate and therefore request information from you as to
what is necessary, if anything, as of this time and if
any forms are required, please attach them so that we
may begin to work out the matter.

Very truly yours,

CORENBLETH, THUSS & JAFFE
