Dear Sir:

Please find enclosed a number of Oil Conservation Commission forms C-102 and C-103 for your use covering operations at the above captioned well.

Generally speaking, the C-102 form is for notification of your intentions and proposed plan of work prior to said work and the C-103 form is for reporting results of your work after completion of each particular job. Presently we need a C-102 covering re-suming operations and your intentions to deepen on whatever the case may be. Likewise you should specify the date, exact if possible, when you anticipate to carry out your work, as listed.

Very truly yours,

Eugene A. Chavez
Geologist
