

OIL CONSERVATION COMMISSION

P. O. BOX 871

SANTA FE, NEW MEXICO

INSPECTION REPORT

May 22, 1952

BESS OIL & GAS CO.

Re: Bess-Rock Bros. No. 1
NESW Sec. 10-16N-35E
Quay County

This well has reached a total depth of 2565' at 5:00 p. m.
today and the formation encountered here is a red shale.

The operator considers that he has reached a good casing
seat and intends to run 5 1/2" casing to above T. D. to shut
off the water. He will reduce the hole size at this depth and
deepen with 5" bits.

Ditch samples are being collected at 10' intervals and a cut
of same will be given to the Oil Conservation Commission
when the well reaches final depth.
