BESS OIL & GAS CO.

RE: Bess-Rock Bros. No. 1  
NESW Sec. 10-16N-35E  
Quay County

On this date at the above captioned well the operator is cleaning out the 7" casing. Previously 400' of this casing had been lost in the hole while lowering same to 2386'. This portion has been lined up and joined to the casing string. The hole has been under-reamed to 2470'. Plans now are to attempt a water shut-off by lowering 5' casing to total depth and continue the hole by under-reaming the smaller casing.
