DRILLING WELL WITH NO ACTIVITY REPORT IN OVER 365 DAYS				

December 5, 1974

Mr. A. L. Portell:

RE: Reeve Chappel Well.

This well was plugged sometime ago in accordance to the regulations as specified by the New Mexico Oil Conservation Commission.
We have talked with the ranch forman, Mr. Bob Bond and understand that all the work required by the Commission has been completed.
We have requested numerous times that we be released from our plugging bond.
To date, I am not sure this has been done. Could you please advise me accordingly.

Best Regards,

H. R. Sidwell
