Re: Sue Ann #1, C-19-17N-17E
Sedberry #1 & Sedberry #2
B 29-17N-16E
San Miguel Co., New Mexico

Dear Mr. Ulvog:

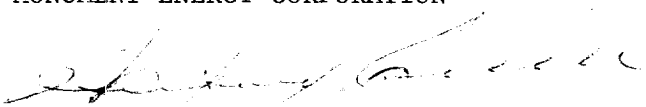

In reply to your recent telephone call, I am enclosing herewith a xerox copy of Form C-103, Subsequent Report of Plug and Abandonment for the Sue Ann #1, which has been properly signed and approved by you and dated May 10, 1976.

The Sedberry well sights have not been cleaned up and leveled as yet due to the pits not being dried out. However, we hope to have this completed in the near future.

I hope this will clear your records for the time being. If we can be of further help, please let us know.

Very truly yours,

MONUMENT ENERGY CORPORATION

Winford Carlile

Re: Sedberry Wells No. 1 and 2,
Section 29, Township 12 North,
Range 16 East

Gentlemen:

This will acknowledge your letter dated July 8, 1976. Please be advised that on the last two inspections of the subject well locations, the pits and surrounding areas appeared to be thoroughly dry. However, as you may know, the rainy season for this general locality will soon be here and the wells are situated near the base of some hills from which runoff can be expected. Since more than two years have elapsed since these wells were drilled, it is apparent that numerous cleanup opportunities have been presented, weather-wise.

In the event you are not aware of the landowner's policy of locked gates, permit me to suggest that you contact a Sgt. Sanders with the State Police in Las Vegas (Phone 425-6771) for a report of road and soil conditions if you cannot verify same otherwise. The Sue Ann Well No. 1 location is in good condition and our files concerning that operation have been closed.

Yours truly,

CARL ULVOG
District IV Supervisor
