Re: Horton Well No. 2
A-32-11N-7E
Santa Fe County, NM

Gentlemen:

A recent inspection of the above-referenced location has shown that drilling activity has ceased. Please submit your future intentions for this well within ten days or this agency will consider this well to be abandoned and will take the appropriate action to insure proper plugging according to our rules and regulations.

If you have any questions concerning this matter, please contact me at this office.

Sincerely,

Re: Horton Well No. 2
Unit A, Section 32,
T-11N, R-7E, Santa Fe
County, New Mexico

Dear Mr. Boren:

This letter is to acknowledge that this office has received the appropriate Form C-105 and induction and compensated density neutron logs on this referenced well.

This office is yet to receive the appropriate Sundry Notice stating your proposed plugging program. This office would anticipate a written communication from you within 10 working days of this letter stating the date and how this well is to be plugged. Should this office not receive this information during this time period, this matter will be turned over to our legal department and a forced plugging case will be set.

At the time of the forced plugging case, this office will request that your bonding company forfeit the bond in order that the State of New Mexico can plug this well in an appropriate fashion.

Should you have any questions pertaining to this matter, please contact me at this office.

Sincerely,

ROY E. JOHNSON

Senior Petroleum Geologist
