

4/12/83

Memo

From
CARL ULVOG
Chief Geologist

To File

Eastern Sandia Prod. #2 Horton

J. Anderson called 8:30am.

*Drilled to 834'. Prep run 8" csg.
May just set pipe today. Don't know
if drilling will continue with CT
or rotary. If w/CT. Csg. will be
considered landed & driven in. If
w/RT will cement. Keep check on
this.*
