Re: State-Kirkman "H" Well No. 1, J-28-T-4N-R-12E, Torrance County, NM

Dear Mr. Johnson:

Since our telephone conversation a month or so ago, Mr. Sparkman, formerly Vice President of S.R.I. Production, Inc., suffered a heart attack and was unable to furnish the information necessary to complete the forms which you requested as necessary in order to officially close the State-Kirkman H#1 file. Mr. Sparkman has recovered, however, and has recently furnished information and has executed the respective forms as the S.R.I. Production, Inc. officer knowledgeable concerning such matters.

I trust that the enclosures, together with a photocopy of the agreement between S.R.I. Production, Inc. and the landowner, Billy G. Hill, regarding conversion of the well to a water well, will serve to complete your records permitting you to close the applicable file and to direct a release of the applicable bond.

As discussed with you by telephone, S.R.I. Production, Inc. has ceased all operations and sold or otherwise disposed of all of its properties. If you have any questions in connection with the enclosures, please contact the undersigned.

Very truly yours,

Randal M. Kirk
General Counsel

INSTRUCTIONS

This form is to be filed with the appropriate District Office of the Division not later than 20 days after the completion of any newly-drilled or deepened well. It shall be accompanied by one copy of all electrical and radio-activity logs run on the well and a summary of all special tests conducted, including drill stem tests. All depths reported shall be measured depths. In the case of directionally drilled wells, true vertical depths shall also be reported. For multiple completions, Items 30 through 34 shall be reported for each zone. The form is to be filed in quintuplicate except on state land, where six copies are required. See Rule 1105.
