TORrance County N.M.

Mr. Johnson:

In regards to the letter dated Dec 27, 1984 I'll try to explain what's going on with this well. My name is John C. Aday the son of John A. Aday who has been hospitalized since mid December. There is presently a pump in the hole that has been pumped a portion of time. However, due to unfavorable weather and illness little has been done on well since approximately mid October. I don't really know what my father's plans were to do with the well at this time. I might be able to answer some questions if you possibly have any. I can be reached at this address.

Sincerely,

John C. Aday
