June 27, 1938

A. Andreas,
Acting State Geologist,
Socorro, New Mexico.

Dear Mr. Andreas:

I wish to acknowledge receipt of your letter dated June 23, 1938 and to inform you that our special spiral Guiberson packer was set in the lower joint of the 5 3/16 inch casing which is bottomed at 2011 feet.

The well is now being tested, and as soon as definite results are known I will advise you of same.

Sincerely yours,

Otto F. Kassul,
Secretary.
