OIL CONSERVATION COMMISSION

P. O. BOX 871

SANTA FE, NEW MEXICO

June 12, 1958

**Mr. Troy R. Pollard
P.O. Box 542
Blanding, Utah**

**Re: H. J. Sewell, et al, Well No. 1, Unit A,
Sec. 28, T-8-N, R-8-E, NMPM, Torrance
County, New Mexico**

Dear Mr. Pollard:

On April 1, 1958, this office forwarded you a supply of Commission forms whereby you could report the plugging of the above-captioned well. To date, we have not received the requested reports.

A recent field inspection revealed that the well has been plugged and the surface cleared of junk and leveled; however, we have no way of knowing how the well was plugged unless Form C-103 is filed setting out that data.

You are hereby directed to immediately submit a detailed report of the plugging operations on the above-captioned well. A supply of Commission Form C-103 is forwarded herewith for your convenience.

If the plugging report is not submitted, we must assume that the well was improperly plugged, in which event we would be compelled to take action against you and your bonding company to have the well drilled out and re-plugged under our supervision.

Very truly yours,

**William J. Cooley
General Counsel**
