Mr. F. B. Umbarger
305 N. Laguarda
Albuquerque, N. M.

Dear Bernie:

NE: Cardinal #1, SE SW 3-SW-14E,
Torrance County, N. M.

In answer to your letter of January 25: before we can release the bond on the above-captioned well it will be necessary that you file a C-105, or driller's log, and a C-103 stating exactly how you plugged back from a reported depth of around 2700 feet to 1,000 feet. It is essential that we have this information before we can close a file on any well. Upon receipt of these forms we will be pleased to cancel this bond.

Very truly yours,

Elvis A. Uts

EAU:mr

P.S. The Bureau of Mines has received samples on this well up to 2363' and we would also like to have the samples from this depth to TD.

Well C-105

Figure 1 illustrates the experimental setup. A subject is seated at a table, viewing a video screen. A video camera is positioned above the screen. A light source is positioned to the left of the screen. A target is positioned on the screen. A ruler is placed on the table. A scale bar is shown at the bottom right.

The investigation of the above mentioned cases
 has led to the conclusion that the above mentioned
 cases are not isolated incidents but are part of a
 general trend of increasing violence against
 the Jewish community in the Soviet Union.
