Dear Gene:

Yours of the 4th received, and sorry that I missed you on your last trip, maybe we can get together on your next visit. Have had a bit of running around to do and we sincerely hope that operations will soon be on a steady day to day schedule before long.

Please make the necessary copies of the plat and bill me for same, it will be much handier if this is done by your office or the Highway department, so feel at liberty to secure them for me.

You will find enclosed Miscellaneous report in triplicate, which covers the work done to date.

Yours very truly,
