Jean Chavez,
c/o New Mexico Oil & Gas Conservation Board,
State House,
Santa Fe, N.M.

Dear Jean:

I left the cuttings from the No. 1 Dallies Well, Valencia County with Mr. Trujillo at Santa Fe Saturday. I am sending a log on the well, as I correlated it and if the Laboratory at the University makes any changes I wish you would give me a copy of their findings and mail it to me in care of the Kenmark Hotel:
