Lara,

Your proposal for remediation of the above referenced release is approved. Please advise in the event the proposed excavation depths are not achieved. BLM approval will be required on Federal sites.

OCD approval does not relieve the operator of liability should their operations fail to adequately investigate and remediate contamination that may pose a threat to ground water, surface water, human health or the environment. In addition, OCD approval does not relieve the operator of responsibility for compliance with any other federal, state, local laws and/or regulations.

If you have any questions or concerns, and for notification, please contact me.
