Bradley,

The BLM is okay with your proposal. Okay to proceed. thanks

Per our meeting on 8-14-14 in regards to the PLU 303, BOPCO plans to excavate to a depth of five feet in sample points one and two, sample point three will be excavated to a depth of six feet to ensure all contamination is removed throughout the release area. Upon completion of excavation and hauling of material, the site will be backfilled with topsoil and closure documentation will be submitted electronically per your request. If you have any questions or concerns please let me know.

Thanks,

Brad Blevins
