RE: Linn Operating \* Barclay St 002 Battery \* 30-015-29590 \* J-2-23s-31e \* Eddy County, NM  
OCD Tracking: 2RP-1315 \* Date of release: 10/5/2012

Gentlemen,

Your amended proposal for remediation of the above referenced release is approved. It is OCD's understanding that in the areas identified as SP-4 and SP-5, any additional delineation or soil removal is not practicable due to soil conditions and various appurtenances that exist in that portion of the battery. Please proceed on your schedule.

OCD approval does not relieve the operator of liability should their operations fail to adequately investigate and remediate contamination that may pose a threat to ground water, surface water, human health or the environment. In addition, OCD approval does not relieve the operator of responsibility for compliance with any other federal, state, local laws and/or regulations.

If you have any questions or concerns, and for notification, please contact me.
