Mike/ Heather

If you recall during our last meeting we discussed collecting further samples on the PLU Big Sinks 27-1H Frac Line release. It was discussed if the chloride numbers did not jump to an extremely high number we would be able to close with no further action required. Please find the attached lab data for the samples collected. At this time I would like to request no further action required at this site. If you have any questions or concerns please let me know. Thanks,

Brad Blevins
