Subject: Re: Emailing: Remediation Work Plan as Submitted Burnett Oil Co., Jackson A31-H

This plan is approved as written with these conditions of approval:

This is in LPC area so all surface disturbance needs to be held to as little as possible to minimize the impacted on the chicken habitat.

This plan still needs to be approved by OCD. BLM approval of this proposal does not relieve the operator of liability should their operations have failed to adequately investigate and re mediate contamination that may pose a threat to groundwater, surface water, human health, or the environment, or if the location fails to reclaim properly. In such an event that location does not re vegetate, or future issues with contaminants are encountered, the operator will be asked to address the issues until contaminant issues are fully mitigated and the location is successfully reclaimed. In addition, BLM approval does not relieve the operator of responsibility for compliance with any other federal, state, or local laws/regulations.
Thanks
