Describe Cause of Problem and Remedial Action Taken.* There was a pulling unit on-site, a hammer union was left loose. The hammer union was re-tightened.		
Describe Area Affected and Cleanup Action Taken.* The release impacted approximately 11,000 sq. ft. of caliche well pad with mostly produced water and misted approximately 15,000 sq. ft. of pasture area with crude oil. The pasture area was treated with micro-blaze. Soil samples were collected, analyzed and based on laboratory analytical results the release area has been excavated and contaminated soil hauled to a state approved disposal facility. A liner was installed over the areas of SP6 and SP7 then the excavation was backfilled with clean soil. The area has been remediated in accordance with the NMOCD and BLM remediation guidelines.		
I hereby certify that the information given above is true and complete to the best of my knowledge and understand that pursuant to NMOCD rules and regulations all operators are required to report and/or file certain release notifications and perform corrective actions for releases which may endanger public health or the environment. The acceptance of a C-141 report by the NMOCD marked as "Final Report" does not relieve the operator of liability should their operations have failed to adequately investigate and remediate contamination that pose a threat to ground water, surface water, human health or the environment. In addition, NMOCD acceptance of a C-141 report does not relieve the operator of responsibility for compliance with any other federal, state, or local laws and/or regulations.
