RE: COG \* GJ West Coop #92 Battery \* fAB1434354066 \* 2RP-2641

Lupe,

Your work plan is approved with the following exception, the OCD would like to see the pad area also excavated at this time. A two foot excavation should suffice and may be backfilled immediately. The narrow flow path across the pad may be left in place to allow any necessary truck access.

OCD approval does not relieve the operator of liability should their operations fail to adequately investigate and remediate contamination that may pose a threat to ground water, surface water, human health or the environment. In addition, OCD approval does not relieve the operator of responsibility for compliance with any other federal, state, local laws and/or regulations.

If you have any questions or concerns, and for notification, please contact me.

Heather Patterson  
Environmental Specialist  
NMOCD District II

**Subject:** (Notification)GJ West COOP #92 Battery

Mr. Bratcher,

COG Operating LLC is reporting a release on the GJ West Coop #92 Battery  
Section 28, Township 17S Range 29E  
The release occurred at 8:00 am on 11/20/2014  
Released: 9 bbls Oil, 24 bbls Produced Water  
Recovered: 8 bbls Oil, 20 bbls Produced Water

The release was caused by a gasket failure on the fire tube of the heater treater. The release impacted the location and the surrounding pasture with the majority of the fluid release contained within the lined facility. The site is being evaluated for clean-up and a C-141 will be submitted. If you have any additional questions please feel free to contact me.

Thanks!
