RE: Yates * Carl TB Com #1 * 30-015-26138 * 2RP-2460

Mr. Settle,

Your work plan is approved with the following exception:

The elevated chlorides at sample point 3 will need to be further addressed, and can be done one of two ways. Either with a liner at 4' or with an 8' excavation.

OCD approval does not relieve the operator of liability should their operations fail to adequately investigate and remediate contamination that may pose a threat to ground water, surface water, human health or the environment. In addition, OCD approval does not relieve the operator of responsibility for compliance with any other federal, state, local laws and/or regulations.

If you have any questions or concerns, and for notification, please contact me.
