Subject: Lost Tank 3 Federal #21

This is to inform you that Oxy Permian Primary NM South had a leak at the Lost Tank 3 Federal #21 Battery on November 4, 2014. Oxy spilled 5 bbls of oil and 5 bbls of produced water due to excess pressure causing the stuffing box packing to blow out on the well head. The preliminary report shows the leak measuring approximately 30' x 60' with the leak staying on location. No fluids were recovered. The release is located in U/L E, Section 3, T22S, R31E of Eddy County, NM. BBC International will remediate the location at a later date and an initial C-141 will follow. Driving directions are not available at this time. API#30-015-37920 GPS coordinates: N 32.42078° W 103.77330°
