Subject: Re: ADU #816, SDE 31 #9
Date: Monday, April 13, 2015 11:58:44 AM

Daniel,

ADU 816

This closure request is approved as written. BLM approval does not relieve the operator of liability, should their operations fail to adequately investigate and remediate contamination that may pose a threat to groundwater, surface water, any other aspects of the natural environment, human health, or if the location does not properly reclaim. In such an event that location does not re-vegetate, or future issues with contaminants are encountered, the operator will be asked to address the location until contaminant issues are fully mitigated and the location is successfully reclaimed. In addition, BLM approval does not relieve the operator of responsibility for compliance with any other federal, state, or local laws/regulations.

SDE 31-09

This closure request is approved as written. BLM approval does not relieve the operator of liability, should their operations fail to adequately investigate and remediate contamination that may pose a threat to groundwater, surface water, any other aspects of the natural environment, human health, or if the location does not properly reclaim. In such an event that location does not re-vegetate, or future issues with contaminants are encountered, the operator will be asked to address the location until contaminant issues are fully mitigated and the location is successfully reclaimed. In addition, BLM approval does not relieve the operator of responsibility for compliance with any other federal, state, or local laws/regulations.

Gentlemen,

Attached in PDF is the Closure Proposal for the ADU #816 and the No Further Action Proposal for the SDE 31 #9. Both sites are operated by XTO Energy.
