NMOCD Tracking Number: **2RP-2674** * Date of release/discovery: 9/27/14

Gentlemen,

Your request for closure of the above referenced release is **not** approved. OCD will require the site to fully delineated. Based on analytical data provided, the constituent of concern is chlorides. Target goal for chloride delineation is 250 mg/kg or, natural background levels. In the event groundwater is encountered during the delineation process, work is to cease and OCD notified immediately. Please notify the OCD District 2 office once delineation work has been scheduled.

If you have any questions or concerns, and for notification, please contact me.
