RE: Yates \* Dolores AIL Federal #1 \* 30-015-26547 \* 2RP-2933

Amber,

Your proposed work plan for the above listed site is approved with the following stipulation:

- Take a bottom hole confirmation sample to ensure chlorides are cleaned up to at least 1000mg/kg.

OCD approval does not relieve the operator of liability should their operations fail to adequately investigate and remediate contamination that may pose a threat to ground water, surface water, human health or the environment. In addition, OCD approval does not relieve the operator of responsibility for compliance with any other federal, state, local laws and/or regulations.

If you have any questions or concerns, and for notification, please contact me or Mike.

Please find attached a work plan for the Dolores AIL Federal #1 release that occurred on March 19, 2015 (2RP-2933).

As soon as we receive approval from both NMCOD and BLM we will move forward with clean-up.

Should you need any additional information or have any questions, please let me know.

Thanks,

**Amber Cannon**
